

PROFILE-L

The PROFILE-L range of letterpress tower systems combines all the plate making process steps into one compact unit and is specifically designed for most types of water washable letterpress plates.

Ideally suited to lower-volume plate making operations where space is limited and cost effectiveness is demanded, this range is perfect for customers using limited gauges of letterpress plate material.

Available in three sizes (A3, A2 and A1), all units have downward facing orbital rotating wash heads, one exposure drawer, three dryer drawers and feature a nine channel PLC controller for each separate function of the unit.

IN SUMMARY:

- ◀ Adjustable wash brush
- ◀ Stainless steel wash tank
- ◀ Lamp hour counter
- ◀ Magnetic plate mount
- ◀ Downward facing orbital rotating wash heads
- ◀ Compact design and footprint
- ◀ 12 months parts warranty
